START:	1015	END:	1110
METHODOLOGY:	CRV	VIEWER ID:	095

1. (S/NF/SK) MISSION: To access and describe three target structures shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "Access 'BUILDINGS B and C' at encrypted coordinates 166997/496912 and describe.", and the overhead photo.
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: Cold and cough.
 - b. 095 had strong PI of personal problems, and I had allowed myself to develop a strong AOL concerning Building C. During a time when the Viewer is not working at top efficiency, he/she can unconsciously lean on the Monitor for information. While I would not consciously lead the Viewer, my strong AOL could have unconsciously and inadvertently affected the results of the session. I felt that it was best to postpone the session until next week, to allow both problems to subside.
 - c. Summary of Information enclosed.
